

NovaTech Solutions

Internal Company Knowledge Base

Confidential — For Internal Use Only
Version 4.1 · Last Updated: March 2025 · Owner: People & Operations

Document Purpose	RAG / LLM chatbot knowledge base — demo dataset
Sections Covered	Company Overview · HR & Onboarding · Products · Engineering · Support · Policies
Intended Use	Vector embedding, semantic chunking, and retrieval-augmented generation testing
Classification	Internal — Confidential
Prepared By	NovaTech People Operations & Engineering

This document is a synthetic internal knowledge base designed to simulate real company documentation. It spans HR policies, product details, engineering runbooks, customer support FAQs, and compliance guidelines — providing diverse content types ideal for testing chunking strategies, embedding models, and retrieval accuracy in a RAG pipeline.

Table of Contents

1. Company Overview

- 1.1 Mission & Vision
- 1.2 Company History
- 1.3 Leadership Team
- 1.4 Office Locations
- 1.5 Business Model

2. HR & Onboarding

- 2.1 First-Week Checklist
- 2.2 Benefits Summary
- 2.3 Time-Off Policy
- 2.4 Performance Reviews
- 2.5 Remote Work Policy

3. Products & Services

- 3.1 Product Portfolio
- 3.2 Pricing Plans
- 3.3 Integrations
- 3.4 Product Roadmap 2025

4. Engineering & Tech Stack

- 4.1 Architecture Overview
- 4.2 Development Workflow
- 4.3 On-Call Runbook
- 4.4 Deployment Guide

5. Customer Support

- 5.1 Support Tiers & SLAs
- 5.2 Common FAQs
- 5.3 Escalation Process

6. Compliance & Security

- 6.1 Data Privacy Policy
- 6.2 Access Control
- 6.3 Incident Response

Company Overview

1.1 Mission & Vision

Mission: Eliminate repetitive work so every team can focus on what matters most.

Vision: Become the operating system for the modern mid-market enterprise by 2028.

Core Values:

- **Customer Obsession** — Every decision starts with the customer.
- **Radical Transparency** — We share context openly, even when it's uncomfortable.
- **Bias for Action** — A good decision today beats a perfect decision next quarter.
- **Compound Growth** — We invest in systems that get better over time.
- **Inclusive Excellence** — Diverse teams build better products.

1.2 Company History

2017	Founded in Austin, TX by CEO Sarah Lin and CTO Marcus Reyes.
2018	Launched first product: NovaFlow workflow automation. Raised \$3M seed round.
2019	Reached 100 customers. Raised \$12M Series A led by Sequoia.
2020	Launched NovaCRM. Grew to 45 employees. Opened London office.
2021	Raised \$40M Series B. Expanded to APAC. Hit \$8M ARR.
2022	Acquired DataBridge Inc. for analytics capabilities. 180 employees.
2023	Launched NovaAI suite. Hit \$22M ARR. Named Forbes Cloud 100.
2024	Raised \$95M Series C. Expanded to 14 countries. Hit 1,200 customers.
2025	Current headcount: 340. ARR: \$41M. IPO target: 2026.

1.3 Leadership Team

Name / Title	Background & Responsibilities
Sarah Lin CEO & Co-Founder	Former VP Product at Salesforce. Drives company strategy, investor relations, and culture.
Marcus Reyes CTO & Co-Founder	Ex-Google SRE lead. Owns engineering, infrastructure, and security roadmap.
Priya Nair CFO	15 years in SaaS finance. Leads FP&A, accounting, and IPO readiness.

James Okafor Chief Revenue Officer	Built sales orgs at HubSpot and Zendesk. Owns sales, partnerships, and revenue ops.
Linda Park Chief Product Officer	Former PM lead at Asana. Drives product vision, design, and roadmap.
Ahmed Hassan VP Engineering	Scaled eng at Stripe. Responsible for all product engineering teams.
Tanya Bright VP People	Built HR at Intercom. Owns recruiting, L&D, compensation, and culture.

1.4 Office Locations

Austin, TX (HQ)	300 Congress Ave, Suite 1200. ~180 employees. Engineering, Product, Finance.
San Francisco, CA	535 Mission St, WeWork. ~60 employees. Sales, Marketing, Partnerships.
London, UK	1 Canada Sq, Canary Wharf. ~55 employees. EMEA Sales & Support.
Singapore	1 Raffles Place, OUB Centre. ~25 employees. APAC expansion hub.
Remote	~20 employees globally. All remote roles use Austin as legal domicile.

1.5 Business Model

NovaTech operates on a subscription SaaS model with annual and monthly billing options. Revenue is driven by three pillars: (1) platform subscription fees based on seat count and tier, (2) professional services for enterprise onboarding and custom integrations, and (3) a marketplace revenue share from third-party app integrations. Net Revenue Retention (NRR) stands at 118% as of Q1 2025, indicating strong expansion revenue from existing customers.

HR & Onboarding

2.1 First-Week Checklist

Day 1 — Setup & Orientation

- Activate your company laptop and NovaTech Google Workspace account (*firstname.lastname@novatech.io*).
- Join Slack channels: #general, #announcements, #your-team, #random, #help-it.
- Complete identity verification and direct deposit setup in **Rippling** (HR system).
- Attend New Hire Welcome Call at 10:00 AM CT (calendar invite sent by People Ops).
- Schedule 1:1s with your manager and 3+ teammates within your first week.

Days 2–5 — Learn & Connect

- Complete required compliance training in **Workramp** (2 hrs total; due by end of week 1).
- Set up LastPass, Okta SSO, and enroll in Duo MFA before accessing any production systems.
- Read the Engineering Handbook (if technical role) or Sales Playbook (if revenue role).
- Attend your team's weekly standup or sync meeting.
- Shadow at least one customer call or demo session.

2.2 Benefits Summary

Benefit	Details
Health Insurance	Medical, Dental, Vision via Aetna. NovaTech covers 90% for employee, 70% for dependents.
401(k)	Fidelity. NovaTech matches 4% of salary. Vesting: 25% per year over 4 years.
Equity (RSUs)	All full-time employees receive RSU grants. 4-year vest, 1-year cliff.
PTO	Unlimited PTO policy. Minimum 15 days/year encouraged. 11 company holidays.
Parental Leave	16 weeks fully paid for primary caregiver; 8 weeks for secondary caregiver.
Learning Budget	\$1,500/year per employee for courses, books, and conferences.
Home Office	\$500 one-time setup stipend + \$75/month for internet.
Mental Health	EAP through Lyra Health — 12 free therapy sessions/year.
Life Insurance	2x annual salary, fully company-paid.

2.3 Time-Off Policy

NovaTech has an **Unlimited PTO** policy. Employees are trusted to manage their own time off in coordination with their team. While there is no accrual cap, employees are expected to take a minimum of 15 days per year. Managers will flag if an employee has taken fewer than 10 days in a calendar year.

How to Request Time Off:

1. Submit request in Rippling at least 2 weeks in advance for absences of 3+ days.
2. Get manager approval (Rippling sends automatic notification).
3. Block your Google Calendar and set OOO auto-responder.
4. Update your Slack status and enable Do Not Disturb.

Company Holidays 2025: Jan 1, Jan 20, Feb 17, May 26, Jun 19, Jul 4, Sep 1, Nov 27, Nov 28, Dec 24, Dec 25.

2.4 Performance Reviews

NovaTech runs a bi-annual performance review cycle (June and December). Reviews use a **360-degree feedback model** — each employee receives input from their manager, peers, and direct reports (if applicable). Ratings use a 5-point scale: Exceptional, Exceeds Expectations, Meets Expectations, Needs Improvement, Unsatisfactory.

Compensation adjustments and RSU refreshes are tied to the December review cycle. Promotions can occur at either cycle. All review documentation is stored in Lattice.

2.5 Remote Work Policy

NovaTech is a **remote-first company**. All roles are eligible for remote work unless explicitly listed as on-site. Remote employees are expected to:

- Be available during core hours: **10:00 AM – 3:00 PM in their local time zone**.
- Join video calls with camera on unless bandwidth or personal circumstances prevent it.
- Attend the annual company All-Hands (expenses covered) and one team offsite per year.
- Maintain a professional workspace — a dedicated desk or home office is recommended.

Products & Services

3.1 Product Portfolio

NovaFlow — Workflow Automation Platform

NovaFlow is NovaTech's flagship product, enabling non-technical users to build automated workflows using a drag-and-drop interface. It connects to 200+ third-party apps via native integrations and webhooks. Key features include: conditional branching, approval workflows, scheduled triggers, audit logs, and role-based access control. Primarily used by Operations, HR, and Finance teams.

NovaCRM — Customer Relationship Management

NovaCRM is a lightweight CRM built for mid-market B2B sales teams. It features contact and deal management, pipeline visualization, email sequencing, call logging, and AI-powered deal scoring. NovaCRM integrates natively with NovaFlow, allowing sales workflows to trigger automated follow-ups, contract generation, and onboarding sequences. Launched in 2020; 420 active customers as of Q1 2025.

NovaAI — AI Copilot Suite

Launched in 2023, NovaAI is an add-on suite that layers large language model capabilities on top of NovaFlow and NovaCRM. Features include: AI-generated workflow suggestions, email drafting, meeting summaries, document extraction, and an embedded chatbot (powered by GPT-4o and Claude). NovaAI is available on Pro and Enterprise plans only.

3.2 Pricing Plans

Plan	Price	Users	Key Features
Starter	\$49/mo	Up to 5	NovaFlow basic, 20 workflows, email support
Growth	\$149/mo	Up to 25	NovaFlow + NovaCRM, 100 workflows, chat support, API access
Pro	\$499/mo	Up to 100	All Growth features + NovaAI, 500 workflows, priority support, SSO
Enterprise	Custom	Unlimited	All Pro features + SLA, dedicated CSM, custom integrations, HIPAA/SO

3.3 Integrations

NovaTech supports native integrations with the following platforms:

- CRM & Sales:** Salesforce, HubSpot, Pipedrive, Zoho CRM
- Communication:** Slack, Microsoft Teams, Gmail, Outlook, Twilio
- Project Management:** Jira, Asana, Monday.com, Trello, Linear
- Finance & Accounting:** QuickBooks, Xero, Stripe, NetSuite

HR & Payroll: Rippling, Workday, BambooHR, Greenhouse

Storage & Docs: Google Drive, Dropbox, Notion, Confluence, SharePoint

Data & Analytics: Snowflake, BigQuery, Looker, Tableau, Metabase

Custom integrations are available via the NovaTech REST API and Zapier connector.

3.4 Product Roadmap 2025

Quarter	Feature / Initiative	Status
Q1 2025	NovaAI v2 — improved document extraction, table parsing	Shipped ✓
Q1 2025	SOC 2 Type II certification renewal	Shipped ✓
Q2 2025	Native Salesforce bidirectional sync in NovaCRM	In Progress
Q2 2025	Mobile app for NovaFlow (iOS & Android)	In Progress
Q3 2025	NovaAI chatbot builder for customers' own support bots	Planned
Q3 2025	Multi-language UI support (ES, FR, DE, JP)	Planned
Q4 2025	NovaAnalytics standalone product launch	Planned
Q4 2025	IPO readiness: audit, S-1 preparation	Planned

Engineering & Tech Stack

4.1 Architecture Overview

NovaTech's infrastructure runs entirely on **AWS (us-east-1 primary, eu-west-1 secondary)**. The platform follows a microservices architecture with ~35 independent services communicating over REST and gRPC. The data plane uses Kafka for event streaming, PostgreSQL (RDS Aurora) for transactional data, Redis for caching and session management, and S3 for file storage.

Layer	Technology
Frontend	React 18, TypeScript, Tailwind CSS, Vite, hosted on Vercel
Backend APIs	Node.js (Express) + Python (FastAPI) microservices
AI / ML	Python, LangChain, OpenAI API, Anthropic API, Pinecone (vector DB)
Message Queue	Apache Kafka (MSK), SQS for async tasks
Databases	PostgreSQL (Aurora), MongoDB Atlas, Redis (ElastiCache)
Search	Elasticsearch (OpenSearch Service)
Infrastructure	Terraform, AWS EKS (Kubernetes), Docker
CI/CD	GitHub Actions, ArgoCD, Datadog for observability
Security	Okta (SSO), AWS KMS (encryption), Snyk (SAST), Cloudflare (WAF)

4.2 Development Workflow

Branching Strategy: GitHub Flow. All changes via Pull Requests to *main*.

PR Requirements:

- At least 1 approved review from a senior engineer before merge.
- All CI checks must pass: lint, unit tests, integration tests, security scan.
- PRs must include a description, test plan, and rollback steps for infrastructure changes.
- Large PRs (>400 lines changed) require 2 reviews.

Sprint Cadence: 2-week sprints. *Sprint planning Monday, retro Friday.*

Tickets are managed in **Linear**. Estimation uses story points (Fibonacci scale). Each team maintains a Definition of Done: code reviewed, tests written, docs updated, feature flagged if risky.

4.3 On-Call Runbook

On-call rotation is managed via **PagerDuty**. Each backend team has a weekly on-call engineer and an escalation backup. Alerts are triaged by severity:

Severity	Definition	Response SLA	Escalation
P0 — Critical	Full outage, data loss, security breach	15 minutes	CTO + Eng Director
P1 — High	Major feature broken, >20% users affected	1 hour	Team Lead + On-Call
P2 — Medium	Degraded performance, partial failure	4 hours	On-Call engineer
P3 — Low	Minor bug, cosmetic issue	Next business day	Team backlog

Incident response steps: (1) Acknowledge alert in PagerDuty, (2) Post to #incidents Slack, (3) Open incident doc from template, (4) Diagnose and mitigate, (5) Write post-mortem within 48h.

4.4 Deployment Guide

Environments: *dev* → *staging* → *production*. **Production deploys require:**

- Passing CI pipeline on GitHub Actions.
- Change ticket approved in Linear with rollback plan.
- Deploy during the deployment window: **Tue–Thu, 10 AM–3 PM ET** (no Friday deploys).
- Monitor Datadog dashboards for 30 minutes post-deploy.

Feature Flags: We use LaunchDarkly for all new features. Every risky change ships behind a flag before full rollout. Flag cleanup is required within 30 days of GA release.

Customer Support

5.1 Support Tiers & SLAs

Support Tier	Channels	First Response SLA	Resolution SLA
Starter	Email only	24 business hours	5 business days
Growth	Email + In-app chat	8 business hours	3 business days
Pro	Email, chat, Zoom (by request)	4 business hours	1 business day
Enterprise	24/7 phone + dedicated CSM	1 hour	4 hours (P0/P1)

5.2 Common FAQs

Q: How do I reset my NovaTech account password?

Go to app.novatech.io and click 'Forgot Password'. Enter your email and you will receive a password reset link within 5 minutes. If you use SSO (Okta, Google), password resets must be done through your identity provider — not NovaTech directly.

Q: Can I add more users to my plan?

Yes. Navigate to Settings → Team → Invite Members. On Starter and Growth plans, additional users above the plan limit are billed at \$15/user/month. Enterprise plans have unlimited seats included. Admin users can manage seats; billing changes take effect immediately.

Q: How do I connect a new integration?

Go to Settings → Integrations → Browse Apps. Search for the app you want to connect and click Connect. Most integrations use OAuth and will prompt you to authenticate. For Salesforce and NetSuite, you will need admin credentials for the third-party platform. Setup guides are available in the NovaTech Help Center at help.novatech.io.

Q: What is NovaTech's uptime SLA?

NovaTech guarantees 99.9% uptime for Growth plans and above (per our Terms of Service). Enterprise customers receive a 99.95% uptime SLA with financial credits for downtime exceeding the threshold. Current and historical uptime is available at status.novatech.io.

Q: How do I export my data?

All data exports are available under Settings → Data → Export. Supported formats: CSV, JSON, and Excel. Exports are processed asynchronously — large exports may take up to 2 hours. You will receive an email with a download link when ready. Enterprise customers can request raw database exports via their dedicated CSM.

Q: Is NovaTech HIPAA compliant?

HIPAA compliance is available on Enterprise plans only. NovaTech will sign a Business Associate Agreement (BAA) with qualifying healthcare customers. Our infrastructure includes encryption at rest (AES-256) and in transit (TLS 1.3), comprehensive audit logging, and access controls that satisfy HIPAA technical safeguard requirements.

5.3 Escalation Process

When a support ticket cannot be resolved at Tier 1 (front-line support), it is escalated following this path:

1. **Tier 1 → Tier 2 (Technical Support Engineer):** For bugs, API issues, or integration failures. SLA: 4h.
2. **Tier 2 → Engineering:** For confirmed product bugs or data integrity issues. Ticket created in Linear.
3. **Engineering → CTO:** For P0 incidents, security issues, or data breaches. Immediate escalation.
4. **Any Tier → Legal:** For compliance violations, GDPR requests, or legal threats.

Compliance & Security

6.1 Data Privacy Policy

NovaTech is committed to protecting customer and employee data in accordance with applicable privacy regulations including **GDPR** (EU), **CCPA** (California), and **PIPEDA** (Canada). Key principles:

- **Data Minimization:** We collect only the data necessary for service delivery.
- **Purpose Limitation:** Data collected for one purpose is not reused for another without consent.
- **Retention Limits:** Customer data is deleted within 30 days of account closure.
- **Right to Access/Delete:** Customers can request a full data export or deletion via privacy@novatech.io.
- **Breach Notification:** Affected parties notified within 72 hours of confirmed breach (GDPR requirement).

NovaTech's Data Protection Officer (DPO) is Elena Schreiber (elena.schreiber@novatech.io).

6.2 Access Control

All systems follow the **principle of least privilege**. Access is granted based on role and revoked immediately upon offboarding.

System	Access Method	MFA Required
AWS Console	Okta SSO + IAM roles	Yes — Duo
GitHub	Okta SSO	Yes — TOTP or hardware key
Production Database	Bastion host + IAM	Yes — Duo
Datadog	Okta SSO	Yes
Customer Data	Role-based in app	Yes — app-level MFA
Payroll / Finance	Rippling + Okta	Yes — Duo

Quarterly access reviews are conducted by the Security team. Any unused access is revoked.

6.3 Incident Response Plan

Phase 1 — Detection: Automated alerts via Datadog, Cloudflare WAF, and AWS GuardDuty. Manual reporting via security@novatech.io.

Phase 2 — Containment: On-call engineer isolates affected systems. CTO and Security Lead notified immediately for P0 incidents.

Phase 3 — Eradication: Root cause identified and eliminated. Patch or config change applied and tested in staging.

Phase 4 — Recovery: Systems restored from clean backups if needed. Validation testing before returning to production traffic.

Phase 5 — Post-Mortem: Written post-mortem due within 48 hours. Shared company-wide in #post-mortems Slack channel. Blameless culture.

Certifications: NovaTech holds SOC 2 Type II and ISO 27001 certifications. Pen testing is conducted annually by an independent third party (most recent: Cure53, Jan 2025).
